

GREEN FOOTBALL WEEKEND

CARLISLE UNITED
IN PARTNERSHIP WITH
CARLISLE UNITED COMMUNITY SPORTS TRUST

4th February | Brunton Park

OUR GREENER GAME

Saturday 4th Feb saw Carlisle United at home to Harrogate. This was our designated **Greener Game**. The Club and the Trust worked in partnership to make the game an event to be proud of. The day was **sponsored by Sun Powered Systems** (a local green energy company), and Cumbria Waste accommodated a trial of **improved recycling** bins in our Fan Zone.

The Trust organised a **Green Market Place**, inviting sustainable businesses to showcase what they do. We had Sustainable Carlisle, Cumbria Action for Sustainability, Wild Futures, ReBike Community Cycle Hub, Hybrid Tec and Warwick Bridge Cornmill running stalls for fans. Local charity TalkHub organised **March to the Match** - an opportunity for fans to meet and walk to the game via a local parks and points of interest.

In the build up to the Green Football Weekend, Carlisle United signed up to Planet League. This gave fans a chance to score green goals for Carlisle United by carrying out eco-friendly actions (such as buying a reusable bottle or turning down the thermostat)

The tournament's end coincided with the Green Football Weekend...and **we finished 14th overall!** A massive achievement.
